

Sinclair Broadcasting's decision to force their stations to air an anti-Kerry documentary days before the election, while not balancing it out with an anti-Bush documentary is not only unfair; but a shameful and disgusting manipulation of the system.

Sinclair uses the public airwaves free of charge, and is obligated by law to serve the public interest. However, the public interest is clearly not being served well when there is a heavy leaning to one side or the other.

This is where the FCC needs to come in. It is imperative that you take action to ensure fairness and decency. While I realize that you may try to slide out of this obligation by the loophole of the programs not actually airing yet; you must know that this is not right, or fair. It is a blatant manipulation which needs your immediate attention.

Thank you.
